因果论证

To begin with, rising educators' salary will cause the cost of education to increase, making it less affordable for students. (论点句) **Since** teacher salary is the highest expense in a school's budget, the increase of their earnings will **result in** considerable growth in tuition. **Therefore**, students that come from disadvantaged/deprived families may decide to quit school to make a living, rather than to continue their education.

使增加教师工资和导致学费增加这个逻辑关系合理化,并继续说明论点可以导致什么后续结果

Since 原因, **result in** 直接结果. **Therefore**, 最终结果

论证方法

因果论证

- 因为A，所以B，导致C
- 使论点的逻辑关系合理化
- 不要思维跳跃

因果论证

常用表达：

• 因为：

- ① 句子（结果）+because/since/as+句子（原因）
- ② because of/thanks to/as a result of/due to/given+词（原因），句子（结果）
- ③ （结果）result from （原因）

• 所以：

- ① 句子（原因），so+句子（结果）
- ② so...that+句子（结果）
- ③ 词（原因）+ result in/bring about/lead to/cause/contribute to +词（结果）
- ④ 句子（原因）. Therefore/Thus/Hence/As a result/Consequently，句子（结果）
- ⑤ 句子（原因），thereby doing sth （结果）

论点：这样会为公司降低员工培训成本

论证思路：为什么论点能够支持立场

- 补全论点：增加职业技术的学习可以为公司降低员工培训成本
- 为什么增加职业技能的学习→公司培训成本降低→立场/观点
- 公司会培训新员工——增加职业技能学习——匹配岗位需求——减少培训——培训成本降低——带来的后续好处——因此应该增加职业技能的学习

论点：增加大学职业技能的培训减轻了企业的员工培训方面的财务负担。

因果论证：

通常，公司在培训新员工上投入大量资源，以使他们熟悉特定的工具和 workflows。通过大学内职业技能培训获得相关岗位所需的动手能力的毕业生只需要接受短期培训。这直接降低了运营成本并提高了生产率，使公司可以将资金分配给创新。

Integrating vocational training into higher education significantly alleviates corporate financial burdens associated with staff training. Typically, businesses invest substantial resources in onboarding new graduates with specific systems and operational workflows. However, students equipped with hands-on technical competencies gained through university-industry collaborations require only short-term training. This reduction in training duration directly curbs operational expenditures while accelerating productivity, thereby enabling capital reallocation toward innovation.

举例论证

In terms of speed, cellphones and email are superior to traditional methods of communication. (论点句:速度快) For example, it takes less than a minute to send an instant message by cellphone to give notifications about meetings for work, or to schedule a dinner date with friends.

It is also important to remember the connection between mental and physical health, a link that has become ever more apparent in an increasingly competitive work market. (论点句) It has been found that unhappiness can lead to serious negative health effects, **such as high blood pressure and other issues which lead to mental instability at the least, and an early grave at the worst. ...**

对于论证中抽象概括评价信息，可以举例具体化

obesity肥胖症; diabetes糖尿病; cancer癌症; poor eyesight 近视眼
respiratory diseases呼吸道疾病; asthma哮喘;
depression抑郁症; anxiety焦虑症

举例论证

The biggest advantage that **television possesses its entertainment value**. (论点句) As mentioned before, children will watch entertaining programs for hours. Rather than having them sit through a boring lecture where they ignore most of what the teacher says, an educational program can keep them focused and teach them at the same time. (解释句) **For example** in the mid-90's to early 2000's, there was a US television program called 'Bill Nye The Science Guy'. **With its funny presentation of scientific concepts in easy to understand demonstrations, it educated an entire generation of children about basic scientific principles, and made them eager to learn more.** (以《比尔教科学》为例分析)

论点：增加职业技术的学习能够满足社会发展需要

举例论证：

在制造业或可再生能源等快速发展的行业中，雇主日益青睐具备行业对接的实践技术能力的毕业生。例如，电气技师须掌握排除电气系统故障等实操，以确保工作场所的安全与效率。尽管理论知识提供了必要的基础，但其往往无法培养岗位所需的专项技能。无法满足具体行业的用人标准。

Enhancing vocational skill acquisition in higher education directly addresses evolving social needs. In rapidly expanding sectors like advanced manufacturing and renewable energy, employers increasingly prioritize graduates equipped with industry-aligned technical competencies. For instance, electrical technicians need master practical applications—such as troubleshooting electrical systems—to ensure operational safety and efficiency. While theoretical knowledge provides essential foundations, it often fails to cultivate job-specific proficiencies; consequently, graduates lacking hands-on training may struggle to meet sector-specific employment benchmarks.
