

## 02 利弊分析

You should spend about 40 minutes on this task (2015.6.13)  
Write about the following topic:

***In some countries, governments are encouraging industries and businesses to move to regional areas outside the big cities.***

***Do the advantages of this trend outweigh the disadvantages?***

Give reasons for your answer and include any relevant example from your own knowledge or experience.

Write at least 250 words

| 结尾段              | 重申立场/观点+总结论点                                                             |

思路探索

好处

坏处

1. 当地居民可以不用离开家乡 (地区)

2. 工作机会增多 (地区)

3. 有利于区域经济发展 (地区)

4. 有利于环境保护 (城市)

5. 降低成本 (工业和商业)

6. 有利于缩小区域差距 (社会)
1. 造成环境破坏 (地区)

2. 冲击传统行业 (地区)

3. 工作机会减少 (城市)

4. 不利于经济发展 (城市)

5. 无法享有大城市带来的资源 (工业和商业)

## 03 让步反驳

### 练习

#### 论点：这会造成环境破坏（地区）

论证思路：为什么论点能够支持立场

- 补全论点：迁移工业和公司去区域地区会导致对地方区域的环境破坏
- 为什么迁移工业和公司→地方区域的环境破坏→立场/观点
- 迁移工业和公司——生产释放有害物质——举例：（造纸厂—产纸同时产化学废水—污染水源）——危害健康——因此搬迁有害

## 复习

### 论点：迁移工业和公司去区域地区会导致对地方区域的环境破坏

当制造设施从城市中心搬迁时，它们通常会在生产中将污染物排放到以前未受污染的生态系统中。例如，造纸厂将含有饱和的有毒化学物质的废水排放到当地河流中，使水源不适合人类饮用。因此，依赖这些水道的社区面临更高的致癌疾病和慢性器官损伤风险。

## 练习

首先，迁移工业和公司去区域地区会导致对地方区域的环境破坏。当制造设施从城市中心搬迁时，它们通常会在生产中将污染物排放到以前未受污染的生态系统中。例如，造纸厂将含有饱和的有毒化学物质的废水排放到当地河流中，使水源不适合人类饮用。因此，依赖这些水道的社区面临更高的致癌疾病和慢性器官损伤风险。

The migration of industries and businesses to regional areas results in significant environmental degradation. When manufacturing facilities relocate from urban centers, they often emit pollutants into previously uncontaminated ecosystems during production. For example, the operations of paper mills discharge wastewater saturated with toxic chemicals into local rivers, rendering water sources unfit for human consumption. Consequently, communities dependent on these waterways face heightened risks of carcinogenic diseases and chronic organ damage.

## 如何转折——坏处/问题

**论点：迁移工业和公司去区域地区会导致对地方区域的环境破坏**

- 肯定问题存在+转折提出解决方案/缓解途径

It is undeniable that [问题确实存在]. However, this challenge is not insurmountable (难以解决的). Through [解决方案1] and [解决方案2], its impact can be significantly solved/mitigated/alleviated.

It is undeniable that the relocation poses environmental damage. However, this challenge is not insurmountable. Through strict environmental policies, such as mandatory waste treatment systems, its impact can be significantly mitigated.

## 如何转折——坏处/问题

- 承认理论上可能性+转折强调现实低概率

While it is theoretically possible that [担忧的问题可能发生], the likelihood of this scenario (可能出现的情况) materializing (实现) on a significant scale (大规模) is considered low/remote/slim (渺茫), primarily due to [原因1] and [原因2].

While it is theoretically possible that artificial intelligence could render all human jobs obsolete, the likelihood of this scenario materializing on a significant scale in the foreseeable future is considered remote, primarily due to the irreplaceable nature of human creativity and emotional intelligence.

## 如何转折——坏处/问题

- 承认问题存在+转折强调影响范围小/程度轻/短期的过渡性的

Admittedly, [问题/现象] can lead to [负面结果]. However, the effect tends to be confined to [特定范围]/to be marginal (不重要的) /to be short-lived, and rarely escalate (不断恶化) into significant problems.

Admittedly, celebrity culture can lead to unrealistic beauty standards among young people. However, these effects tend to be marginal and short-lived, heavily influenced by peer groups and family, and rarely escalate into significant body dysmorphia (身体畸形) across the population.
